FOR OVER 70 YEARS...

John E. Reid and Associates has been providing the most up-to-date and effective training available in the world in the specialized skills of conducting investigative interviews and interrogations. In fact, our courses have become required training programs for hundreds of departments and organizations throughout the country.

Visit www.reid.com to learn about:

- Our work with the Innocence Project
- Why several courts have admonished investigators because they did not follow our guidelines
- Why we are referred to as the benchmark for proper interrogation practices and procedures
- The most recent research that supports and confirms our approach, tactics and techniques
- Our best practices

Here is what you will learn at the 3-day training program on THE REID TECHNIQUE OF INTERVIEWING AND INTERROGATION®:

- How to interpret verbal and non-verbal behavior to assess the credibility of a victim, witness or suspect's statements
- How to use behavior provoking questions in the interview process
- How to use THE REID NINE STEPS OF INTERROGATION® process to:
 - ✓ Develop interrogation strategies
 - ✓ Develop themes (persuasive statements)
 - ✓ Develop the alternative question to elicit the first admission

THE ADVANCED COURSE ON THE REID TECHNIQUE OF INTERVIEWING AND INTERROGATION® (1 day) will build on the foundation established in the 3-day program, and focus on how to handle the more defiant subject; how to “overcome objections;” how to address the subject’s fears and how to move the subject past the denial phase, while at the same time, motivating the subject to want to tell the truth.

THE CORE PRINCIPLES that form the foundation of our training programs include the following:

- *Always treat the subject with dignity and respect*
- *Use empathy, sound reasoning, and logic to elicit the truth and do not make any promises of leniency or threats of harm or inevitable consequences*
- *Do not conduct interrogations for an excessively lengthy period of time*
- *Do not deny the subject any of their rights*
- *Do not deny the subject the opportunity to satisfy their physical needs*
- *Exercise special cautions when questioning juveniles or individuals with mental or psychological impairments*

We develop investigator tips, newsletters and updates for continuous education
